STUBEN

Our Stuben are traditionally decorated in Bavarian flair and flooded with light. Perfect for your celebration with up to 110 people.

MIZU SUSHI BAR

Our MIZU Sushi Bar is the only Japanese restaurant on Lake Tegernsee and delights guests with classic highlights such as nigiri, sashimi and maki variations. Here, Far Eastern culture and the Bavarian way of life merge into a special experience. The Japanese chef is in charge of this, and his creations bring a piece of the Far East into our restaurant in a completely authentic way.

MIZU BAR - FROM SAKE TO YUZU - JAPAN'S ART OF BARTENDING AT LAKE TEGERNSEE

Experience pleasure consciously - at the SPA & RESORT BACHMAIR WEISSACH there is now another place to do so. In the newly designed MIZU Bar, the devoted perfection of Japanese dining culture, as guests know it from the popular MIZU Sushi Bar, finds its continuation as a night bar. Like the restaurant, the ambience of the bar next door also thrives on casual elegance and unobtrusive comfort - and yet stands in startling contrast to it.

GASTHOF ZUR WEISSACH

The traditional restaurant "Gasthof zur Weissach" serves upscale Bavarian cuisine. In the rooms dating back to 1862, you can breathe in Tegernsee's history and discover little details from years gone by everywhere. Ludwig Thoma and Ludwig Ganghofer already sat here to discuss events "in the valley" over beer and a hearty Bavarian meal. In summer, our guests sit on the sunny terrace and enjoy the view of the surrounding mountain landscape.

KREUTHER FONDUE STUBN

A winter temptation at its best! When the temperatures drop in winter and a white blanket of snow lies over the land, there is nothing better than spending an evening in our fondue restaurant. Take a seat by the open fireplace in the Kreuther Fondue Stube, which exudes a homely Alpine cosiness with its low ceilings and light wood panelling. The menu ranges from fish and meat to classic cheese fondue.

WELLNESS

MIZU ONSEN SPA

The 3000 m² wellness area of the MIZU ONSEN SPA is a unique fusion of Japanese bathing culture and regional water world and offers everything from hot and cold water pools, steam and heat rooms to a heated outdoor pool with brine water. Rest areas are also provided. There are various Silent Rooms, a stone pine relaxation room, a fireplace lounge & snack bar - all with a view of the mountains or the MIZU ONSEN garden with stream and natural pool. A separate FAMILY SPA with indoor children's pool ensures fun for the whole family.

The location alone, centrally located in the Tegernsee Valley, surrounded by the beautiful mountains and close to the lake, offers numerous opportunities for varied activities. In summer you can go hiking, mountain biking, swimming, golfing, SUP, sailing and in winter a snow paradise for skiing, cross-country skiing, tobogganing and winter hiking awaits you.

LEVANTINE CUISINE

The culinary concept draws its inspiration from Japan: the Robata grill with its open fire pit is seamlessly blended with the aromatic flavors of the Eastern Mediterranean cuisine found in restaurants in Jerusalem, Tel Aviv, or Beirut. Ingredients like sesame, mint, pomegranate, ginger, coriander, cumin, and citrus infuse a fresh and original character into local fish and meats. The clubhouse also pays special attention to vegetables, crafting them into exciting flavor combinations. Completing the perfect clubhouse experience are the signature drinks from the bar, which also incorporate Levantine flavors such as pistachios, mint, pomegranate, watermelon, rosewater, or orange blossom water, transforming cocktails into subtle companions to this oriental grill cuisine.

- Entrance/Reception
- Cloakroom
- Shop
- Bistro
- Restaurant Gardone
- Restrooms
- Baby station

A sunlit space where around a recreated lake, two to three-story houses have been constructed. On the lower floors of these buildings, visitors can learn about the region. Sometimes they offer a multimedia and interactive glimpse into the underwater world of Lake Tegernsee, and other times, visitors receive detailed information about the region's ecology. In another area, the celebrities of the Tegernsee Valley are highlighted, whether they are world-famous artists, athletes, business magnates, or politicians originating from Tegernsee. Also housed within this hall is what might be the world's largest glass bouldering wall, as well as carousels and a modern pizzeria.

There's always something in motion here. In the semi-darkness of the mystical fantasy landscape, a Ninja Warrior course, an unusual high ropes course, and an interactive trampoline arena with auditory and visual effects provide plenty of adrenaline. The uniqueness of "Tegernsee Phantastisch" is particularly owed to the creative use of the latest technologies and media. This is evidenced by a 5D cinema and a Virtual Reality Room, both developed in cooperation with Europa-Park Rust

For a uniquely special event highlight, "Tegernsee Phantastisch" can be exclusively booked for gala evenings, accommodating up to 200 people.

WILDBAD
KREUTH

A MAGICAL PLACE FOR TRULY SPECIAL EVENTS

The Tegernsee Valley harbors unique historical and cultural treasures, and one of them has quietly slumbered in the shadows in recent years: Wildbad Kreuth. Owner and hotelier Korbinian Kohler, who has been highly successful in the Tegernsee Valley with properties like Spa & Resort Bachmair Weissach, took over the grand estate south of Kreuth on April 1, 2021, and now offers it for exclusive rental for special celebrations.

The vast mountain meadow, the banquet hall, the historic fireplace room, and the Molkehalle are available as versatile spaces for gatherings, stylish merriment, and culinary delight.

HISTORY: With its 500-year history, Wildbad Kreuth is a place that is historically, mystically, and spiritually charged, nestled in the secluded location amidst imposing mountains and surrounded by unspoiled nature. Korbinian Kohler was captivated by its charm from the very beginning.

From Emperor Franz Joseph I to Russia's Tsars Nicholas I and Alexander I, Wildbad Kreuth has been a meeting place for nobility and the establishment. Even today, it holds a special place in the hearts of many as a source of unique energy. Political figures like Franz Josef Strauß also couldn't resist its allure. From 1974 to 2016, Wildbad Kreuth served as a conference venue, leased by the Hanns Seidl Foundation, fostering intellectual exchange, cultured encounters, education, and inspiration. The annual retreats of the CSU brought Wildbad Kreuth significant media attention.

Since 1818, Wildbad Kreuth has been owned by the royal Wittelsbach family. Therefore, the dynastic significance of the place for the family is immense. "In all the conversations with the ducal family about Wildbad Kreuth, it became palpable to me that we are not just talking about an economic asset but a part of their life in Bavaria," says Korbinian Kohler. The ducal family has now granted him a long-term lease, allowing the native Tegernsee resident to lead this special place into a new era.

ALTES BAD

HERZOGLICHES GASTHAUS

In the Herzogliches Gasthaus Altes Bad in Wildbad Kreuth, Bavarian traditional cuisine is served in a historic, ducal ambiance, where once kings and emperors have dined. Here, hunting, fishing, cooking, and curing are carried out as has been the tradition in the Tegernsee Valley for centuries!

The cuisine is inspired by Tegernsee specialties: thus, in the Altes Bad, you will always find what the Kreuth nature has to offer. As King Max loved it back in 1818, we prepare local products such as cheese specialties from the Naturkäserei Kreuth, game and mushrooms from the surrounding forests, as well as trout and char from the ducal fishery. All ingredients come from selected partners in the immediate vicinity.

With a view of the imposing Blauberge mountains, the Altes Bad is the perfect stop after a hike or a hunting excursion. Even in the past, visitors to the old bathhouse relished the healing sulfur springs, using them for their legs, and celebrated their well-being with a Tegernseer Hell beer in the beer garden!

HISTORIE

The legend about the founding of Wildbad Kreuth goes like this: In the forests between the Weißach Valley and the Blaubeerge mountains, a hunter is said to have observed an injured deer cow seeking relief from its ailments at a spring. The shepherds and farmers of the area followed suit – and were healed. At that time, no one knew that the water was sulfuric and thus genuinely beneficial to health – but the healing power of the spring was indisputable.

The bath "Sankt Leonhard" in Kreuth was first mentioned in 1490. A proper bathhouse was finally built by Abbot Heinrich V of Tegernsee in 1511. This marked the beginning of the health business in Wildbad Kreuth, with the construction of the first buildings. The bath remained in the possession of the Benedictines in Tegernsee until the secularization in 1803. The then bathmaster Simon Zahler acquired the chapel, residential and bathhouse, as well as the surrounding meadows and forests. In 1818, King Max I Joseph of Bavaria bought the buildings, starting the Wittelsbach era in the Kreuther Valley. The architect Leo von Klenze, commissioned by the king, constructed the existing two-winged building with outbuildings. The prominence of the time was drawn not only because of the springs but also by the goat whey cures. The Wildbad seemingly survived the Second World War unscathed until the night of May 4 to 5, 1945, when American troops set fire to the brewery. In 1956/57, Ludwig Wilhelm had it renovated, and the sanatorium returned to its former glory.

On May 1, 2023, Korbinian Kohler takes over as the new operator of the 'Altes Bad'.
